

# Fact Sheet: WATER SYSTEM

## The Numbers . . .

About **75%** of the parcels in Kingsville Township have access to public water. The remaining parcels rely on private wells.

There are approximately **56** hydrants in the township. Most are managed by Aqua Ohio whose service area covers most of the township. A small portion along Creek Rd is covered by the City of Conneaut water distribution.

## Did You Know . . .

“Under a new Ohio law enacted in June 2016, community and nontransient noncommunity public water systems are required to identify areas that are known to contain or likely to contain lead service lines. . . .”

To see maps for the Kingsville area go to <https://www.epa.ohio.gov/ddagw/pws/leadandcopper/map> and look for “AQUA OHIO – ASHTABULA” & “CONNEAUT” in the map list.
